

## **Primary Sports Premium**

Our vision at Fleggburgh CE School is that all children enjoy and develop positive attitudes to physical education and sport.

Through physical education and sport we aim to:

- Improve fitness, health and well-being.
- Promote active participation and lifelong learning.
- Allow each child to fulfil their potential.

## **Primary school PE and Sport Premium funding**

### **What is the Sports Premium?**

The Government provides funding of £150 million per annum for each academic year to improve provision of physical education and sport in primary schools. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and sees money going directly to primary schools to spend on improving the quality of sport and PE for all their children. The sport funding can only be spent on sport and PE provision in schools.

### **How much do we receive as a school?**

For the academic year 2017/18 we received £16,430.

### **Sports Premium funding at Fleggburgh School has been spent in the following way:**

The Acle Cluster employs an extended schools worker (partly funded by Sports Premium Funding) to organise a range of competitive events held across the whole academic year. These events are keenly contested and encourage wide participation from all the schools taking part. They are extremely popular amongst our pupils and include cross country, cricket, football, tennis, swimming and athletics.

Working alongside the extended schools worker, head teachers and subject leaders organise sporting events which all our pupils can take part in, such as the Cluster Dance and Music event at the Open Venue in the summer term. This event is non-competitive but celebrates the diversity of approaches within each school to create memorable dance routines and encourages and promotes participation of both boys and girls.

As in previous years this funding will pay for our PE specialist HLTA Mrs Debbie Glover to lead PE sessions across the school, provide guidance and advice for sports teams, and accompany teams to sporting events.

Sport Premium funding has been spent on transportation so that we can increase participation in all the sports events provided by the cluster and travel to high quality venues, such as the UEA Sports Park, for competitive events.

Sports premium has also been used to access staff training for rugby, hockey, football and cricket training.

A range of equipment and resources has been purchased so that pupils develop healthy lifestyles in their recreation times. This includes the purchase of footballs, hurdles, volleyballs and target nets.

### **Next steps**

We want to introduce more activities through our partnership with outside providers and are currently in discussion with them in order to extend the range of activities. We also have a link with Acle Tennis Club and their coach will be working in school during the summer term 2018. We will use the expertise across our Federation. A member of staff at our partnered school, Freethorpe Community Primary, is introducing yoga for children and she will deliver staff training and introductory sessions for pupils. This is a new activity not delivered previously in school.

We will use the sports premium top offer further training opportunities for all staff to increase their confidence and skill knowledge when teaching PE.

## Swimming

For the 2017 to 2018 academic year, there is a new condition requiring schools to publish how many pupils within their year 6 cohort are meeting the national curriculum requirement to swim competently, confidently and proficiently over a distance of at least 25 metres, use a range of strokes effectively and perform safe self-rescue in different water-based situations.

What percentage of your Year 6 pupils could swim competently, confidently and proficiently over a distance of at least 25 metres when they left your primary school at the end of last academic year? 100%

What percentage of your Year 6 pupils could use a range of strokes effectively [for example, front crawl, backstroke and breaststroke] when they left your primary school at the end of last academic year? 100%

What percentage of your Year 6 pupils could perform safe self-rescue in different water-based situations when they left your primary school at the end of last academic year? 100%

Impact: The Sport Premium Funding will impact upon our school in the following ways:

- Greatly enhance the skills of our staff team (teaching and non-teaching) in terms of their ability to deliver or support in, very high quality PE sessions for our children;
- Provide a high level of challenge in this area of the curriculum for our children;
- Raise the skill level and confidence in children to participate in PE and various sporting opportunities;
- Increase children's knowledge of the part that PE and sport can play as part of a healthy lifestyle;
- Enable children to take part in a greater range of PE/sporting activity and broaden horizons as to what is possible;
- Raise the profile of PE and sport across the whole school community to help make developments sustainable for the future;
- Allow us to make links with outside sporting providers and club links.
